2021 Travel Insurance Policy Wording

Important Declaration

An insurance policy can only provide cover in respect of an event/occurrence which is sudden, unforeseen and beyond **Your** reasonable control. Any facts known to **You**, prior to purchasing this cover and also between the date of purchase of this policy and the date of travel which could possibly result in **You** having to make a claim, must be disclosed to **Us** otherwise **You** may not be covered or may be subject to revised terms and conditions and possible medical screening additional premium.

In addition, anyone named under the policy must have read and understood the following relating to **Existing Medical Conditions**.

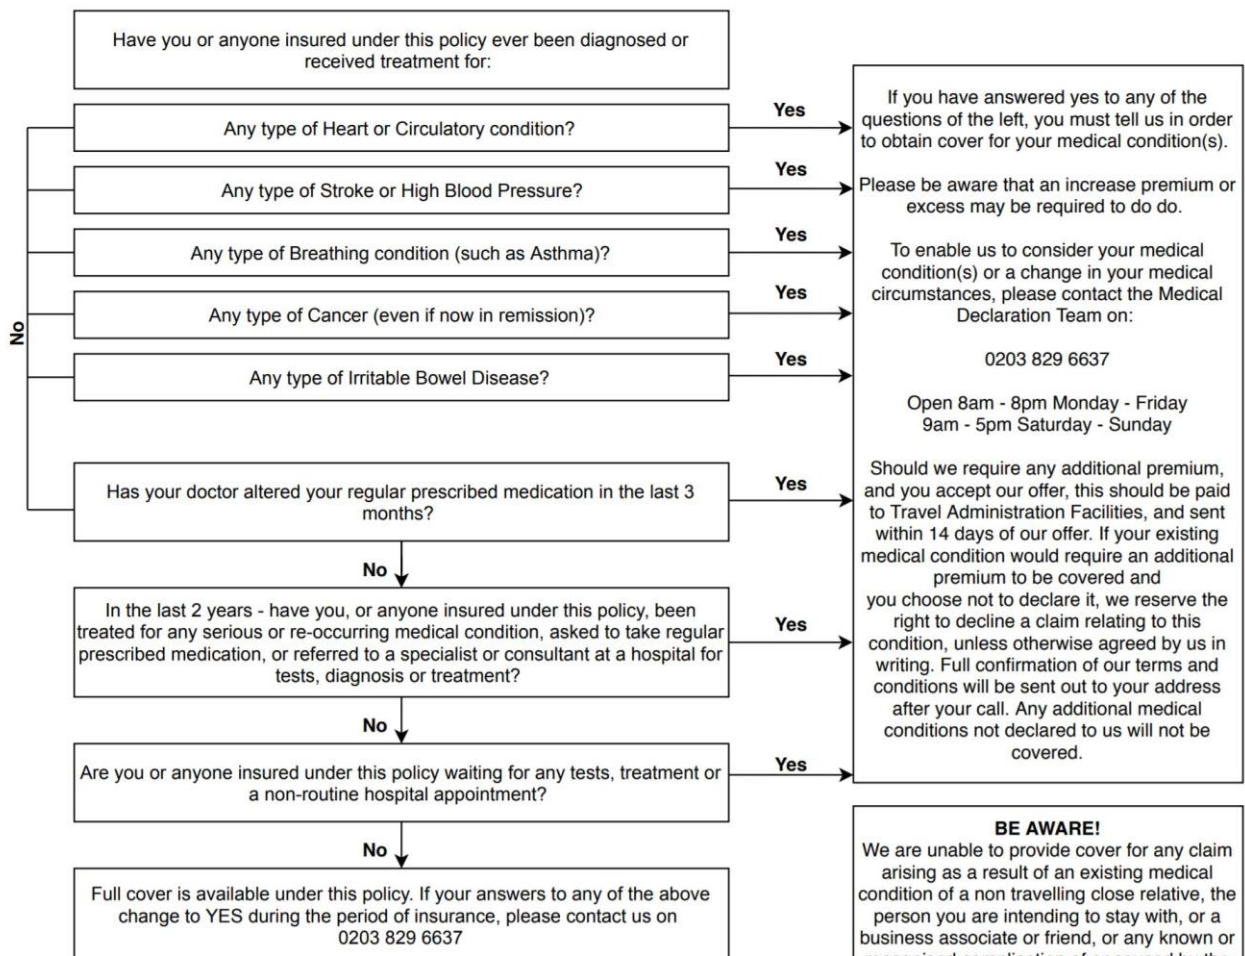

EXISTING MEDICAL CONDITIONS

Your policies may not cover claims arising from your medical conditions. If you answer 'yes' to any of the questions below then you must declare the relevant conditions to us. Please tell them that you have a Sanctuary Great Rail Journeys Travel Insurance Policy.

The Medical Declaration Team may be contacted between 8am and 8pm Monday to Friday and 9am and 5pm on Saturdays and Sundays. So that we can ensure you are provided with the best cover we can offer please read and answer the following questions carefully and accurately: Please see page 2 for policy definition of **Existing Medical Condition**.

Please call on:

Important Declaration

You will be advised whether the **Existing Medical Condition** may be covered, an additional premium may be quoted and whether any amendments will be made to the policy terms and conditions. If terms can be provided for the condition **You** will be given a medical screening reference number and a letter will be sent to **You** upon receipt of payment. Any additional premiums must be paid directly to the medical screening company and not the company **You** are arranging **Your** travel insurance with.

Should **You** not make the medical helpline aware of any **Existing Medical Condition**, cover for the **Medical Condition** in question will be excluded. If there is a change to **Your** health which arises between the date of purchasing the policy and the planned date of departure please contact the Medical Declaration Team for further advice, in order to establish if the change in **Your** health will affect **Your** cover under this insurance.

There is no cancellation or curtailment cover for an **Existing Medical Condition** of persons not necessarily travelling but upon whom travel depends, such as a **Close Relative**.

Definitions of an Existing Medical Condition:

Please also see General Exclusion 8 for additional details of other excluded **Medical Conditions**.

In deciding to accept this insurance and in setting the terms and premium, **We** have relied on the information **You** have given **Us**. **You** must take reasonable care to provide complete and accurate answers to the questions **We** ask when **You** take out and make changes to **Your** policy.

In Case Of A Serious Emergency

PLEASE NOTE: This is a travel insurance policy and not private medical insurance. This means there is no cover for any medical expenses incurred in private medical facilities if we have confirmed that medically capable public facilities are available.

IF YOU NEED MEDICAL ASSISTANCE WHEN YOU ARE AWAY YOU SHOULD CALL 112 OR THE LOCAL EQUIVALENT OF 999

Customers should receive emergency medical treatment or management regardless of their ability to pay or any other consideration. A failure or refusal by a treating hospital or treating doctor to provide emergency treatment, management or care is a clear breach of an established duty of care.

YOU SHOULD THEN CALL US ON +44 (0) 203 829 6745

Whilst the actual medical care you receive is in the hands of the local doctors treating you, we can obtain the medical information we need from them to establish what is wrong, as well as their treatment and discharge plans. We can support you in the event you are admitted to a facility that may not be suitable for your clinical needs or where there are concerns over practice.

We will then advise on, and can put in place, suitable repatriation plans to get you home as soon as it is medically safe to do so. We will liaise with the treating doctor to get a fit to fly certificate when needed, and with aero-medical experts who will advise on both the timing and method of repatriation that is best suited to your individual needs of your recovery.

It is important that you are aware of the following:

Medical Treatment

- There is not cover for:
 - routine, non-emergency or elective treatment
 - or treatment that can wait until you return home.
- Our doctors are not treating you; they are not responsible or in control of the clinical care you are receiving in a medical facility.
- In some instances, you may need to be moved from one local facility to another larger/more specialised facility, for treatment.
- Having travel insurance does not ensure a 'fast track' medical service from the treating facility, much like the NHS – emergency service rooms can be busy at certain times and so it is possible you may have to wait as you would in your local NHS hospital unless you require critical care.
- Once you are discharged from hospital this does not always mean you are fit to fly home – For example, if you were in the UK and suffered the same injury/illness, then you would not consider flying out on holiday so soon after surgery/treatment/incident.
- Some medical facilities will raise charges that are far in excess of customary and reasonable; we will deal with such bills directly and there is no need for you to pay them. You simply need to pass any correspondence about such bills to us to ensure we can provide full financial protection.

Repatriation (bringing you home)

- Coming home straight away is not always an option even if you are considered 'fit to fly' by the treating doctor.
- We have a medical team with experience in aviation medicine who will advise on both the timing and method of repatriation which is best suited to your individual needs and your recovery.
- Most airlines require specific criteria to be met in order to accept a 'medical passenger'.
- Things change – if your health, stability or vitals change – then so do the plans.
- Availability of air ambulances, stretchers and appropriate medical escorts can be limited in specific areas and at different times of the year.
- Air Ambulances are 'flying intensive care units' and are only used to transport critical patients to a hospital in the UK, if treatment is not possible where they are.

OUT-PATIENT TREATMENT OF MINOR INJURY OR ILLNESS

PLEASE NOTE: This is a travel insurance policy and not private medical insurance. This means there is no cover for any medical expenses incurred in private medical facilities if we have confirmed that medically capable public facilities are available.

FOR A NON-URGENT MEDICAL SITUATION

That is something you would normally see your GP or minor injuries unit for, so you don't need to attend hospital but you do need some medication to treat a non-emergency situation. Like what? Poorly child with tonsillitis? Infected cut on your foot? We have teamed up with **Medical Solutions UK Ltd**, who offer UK Registered Doctors who give medical support and assessment over the phone and are able to prescribe in many countries across the globe. This means you can quickly access support with minor ailments without disrupting your trip too much. You can access this facility free of charge by calling **+44 161 468 3793**.

YOU CAN ALSO CALL 112 OR THE LOCAL EQUIVALENT OF 999

Customers should receive emergency medical treatment or management regardless of their ability to pay or any other consideration, a failure or refusal by a treating hospital or treating doctor to provide emergency treatment, management or care is a clear breach of an established duty of care.

OPTIMAL CARE

In our experience access to the best doctors, diagnostics and optimal care, particularly in Europe but also across many destinations worldwide, is to be found within the regulated environment of state hospitals. Whilst they don't always look as nice as some private facilities, we have experience of good clinical outcomes without the risk of a patients' health being compromised by commercial interest, or immoral and dangerous practices such as extortion, detainment and withdrawal of treatment. If you would like to know more about our approach to best medical care overseas and repatriation planning, please visit our website <https://philosophies.tifgroup.co.uk/>

IN THE EVENT THAT YOU DO RECEIVE OUT-PATIENT TREATMENT WHEN YOU ARE TRAVELLING

In European Union Countries – if you present yourself at a public facility you should show your EHIC.

In Australia – you should enrol for Medicare, and have it accepted.

Using these agreements in public facilities will mean that medical treatment will be free, or at a reduced cost, and your standard policy excess will be waived from any claim you may make. If you are unable to use the EHIC, you will have to pay the medical facility and submit a claim when you get home, the policy excess will then be applied.

In Turkey, Cyprus, Egypt and Bulgaria – we utilise the services of Global Excel who can arrange for the bill to be paid directly. You simply fill in a Global Excel form in the medical facility to confirm the nature of the treatment received and pay your policy excess to the facility. They will then send the remaining bill directly to Global Excel for payment. More information can be found here www.globalexcel.com.

Everywhere else in the World – if there is not a suitable public facility that will treat you free of charge, you can pay the medical facility and retain all receipts so that you can make a claim when you get home.

PLEASE NOTE: If the costs are likely to exceed £500 or you are admitted to hospital, you should call us on +44 (0) 203 829 6745.
